

Expense Reimbursement Policy — FY 2025-26

Finance Department - Infovance Technologies Pvt. Ltd.

Document ID: FIN-POL-EXP-2025-04	Version: 5.1	Effective: 01 April 2025
Owner: Finance Department	Classification: Internal	Next review: 31 March 2026

1. Purpose and Scope

This Expense Reimbursement Policy defines the rules under which employees of Infovance Technologies Pvt. Ltd. may incur and reclaim legitimate business expenses for the financial year 2025-26. The objective is to ensure that employees are fairly reimbursed for costs incurred while performing their duties, while maintaining financial discipline, statutory compliance and a clear audit trail. The policy applies to all full-time employees across the Human Resources, Information Technology, Finance and Engineering departments. Contractors and vendors are reimbursed strictly as per their contractual terms.

All expenses must be reasonable, directly related to Company business, supported by valid documentation, and within the limits set out below. Employees are expected to exercise the same prudence with Company money as they would with their own.

2. Eligible Expense Categories

The following categories of expense are reimbursable when incurred wholly for business purposes:

- Travel:** Local commuting for official work, and outstation/inter-city travel by approved modes (rail AC chair car / 3AC, economy-class air for journeys over six hours or where time-critical, and metered/app-based cabs).
- Accommodation:** Hotel stay during outstation business travel.
- Meals:** Reasonable meal expenses during business travel or while working at a client site away from base location.
- Client Entertainment:** Pre-approved meals or hospitality with clients in furtherance of business, with the client name and purpose recorded.

3. Expense Limits

The following standard limits apply. Amounts above these limits require explicit prior approval from the Department Head and will be assessed case by case.

Category	Limit	Notes
Local travel (auto-approved)	INR 500 / day	App-based cab or auto receipts; no separate sign-off up to limit
Outstation accommodation	INR 3,000 / day	Metro cities; tariff inclusive of taxes
Meals	INR 800 / day	During business travel or client-site deputation
Client entertainment	INR 2,500 / event	Prior manager approval; record client & purpose
International travel	Separate approval	Requires CFO sign-off and a pre-trip budget

Limits are caps, not entitlements. Where the actual reasonable cost is lower, only the actual cost is reimbursed. Accommodation in non-metro locations is generally expected to be lower than the metro cap.

4. International Travel

International business travel requires a separate, pre-approved travel requisition and budget, signed off by the Department Head and the Chief Financial Officer. Per-diem rates, visa costs, foreign-exchange arrangements and travel insurance are handled through the dedicated international-travel process administered by the Finance team.

Personal travel combined with a business trip must be clearly demarcated, with personal costs borne by the employee.

5. Submission Process

All claims are submitted through the InfoPeople portal under Finance → Reimbursements. The process is:

- Submit each claim **within 30 days** of the date the expense was incurred. Claims older than 30 days require a written justification and Department Head approval, and may be rejected.
- Create a claim, select the category, enter the amount and date, and attach legible supporting documents.
- Group related expenses from a single trip under one claim reference for easier review.
- Submit for approval; the claim is routed automatically through the approval workflow in Section 7.
- Track status under **My Reimbursements**; you will be notified of approval, query or rejection.

6. Required Documentation

Valid documentation is mandatory for every claim. Reimbursement cannot be processed without it. Acceptable documents include:

- Original tax invoices or bills showing the vendor name, GSTIN (where applicable), date and amount.
- For air travel: the e-ticket, boarding passes and the airline tax invoice.
- For rail travel: the ticket and reservation confirmation.
- For cabs/autos: the trip receipt or app invoice.
- For hotels: the itemised GST tax invoice (not merely the booking confirmation).
- For client entertainment: the bill plus a note of attendees, client name and business purpose.

Hand-written chits, screenshots without invoice details, or estimated amounts are not acceptable. Where a GST invoice is available, it must be obtained to enable input tax credit (see Section 9).

7. Approval Workflow and Authority Limits

Claim Value (per claim)	Approving Authority
Up to INR 10,000	Reporting Manager
INR 10,001 to INR 50,000	Department Head
Above INR 50,000	Chief Financial Officer (CFO)

Each approver validates the business justification, policy compliance and supporting documents. Claims may be returned with queries; employees should respond promptly to avoid delays.

8. Payment Timeline

Approved reimbursements are paid directly to the employee's registered bank account within **seven working days** of final approval, through the next available payment run. Reimbursements are paid separately from monthly salary and are reflected in the employee's reimbursement statement on the portal.

9. GST Input Tax Credit

Infovance is a registered taxpayer under the Goods and Services Tax (GST) regime. To enable the Company to claim eligible input tax credit, employees must obtain proper tax invoices bearing the Company's GSTIN and registered name wherever the expense is incurred for business and the vendor is GST-registered. This is particularly relevant for hotels, air travel and client meals. Claims accompanied by a compliant GST invoice are processed faster; the Finance team reconciles eligible credit against the vendor's GST filings. Input credit is generally not available on certain blocked categories under the GST law, and Finance will advise where this applies.

10. Travel Advance

For significant outstation or international travel, an employee may request a travel advance to cover anticipated costs. The process is:

- Raise a travel-advance request on the portal with the trip dates, purpose and an estimated budget, at least five working days before travel.
- On approval, the advance is credited to the registered bank account before the trip.
- Within **15 days of returning**, submit the actual expense claim with bills to settle the advance.
- Any unspent balance must be refunded to the Company; any approved excess is reimbursed.
- Failure to settle an advance within 30 days may result in recovery from salary.

11. Non-Reimbursable Expenses

The following are not reimbursable under any circumstances:

- Personal expenses (personal shopping, personal phone bills, personal entertainment).
- Traffic fines, penalties, late-payment charges and parking fines.
- Alcohol, except where pre-approved as part of a sanctioned client-entertainment event.
- In-room mini-bar, laundry beyond reasonable limits, spa and recreation charges.
- Upgrades to business/first class without prior CFO approval.
- Loss of personal belongings during travel.
- Expenses without valid supporting documentation.
- Expenses incurred on behalf of family members or non-employees.

12. Compliance and Audit

Expense claims are subject to random and periodic audit by the Finance team and internal auditors. Submission of false, inflated or duplicate claims is a serious breach of the Code of Conduct and may lead to disciplinary action, recovery of amounts and, in serious cases, termination. For clarifications, contact **finance@infovance.com**. This policy is reviewed annually and supersedes all prior expense guidelines.
